

# EQUESTRIAN FACILITIES

Equestrian owners love their horses. It's easy to see given all the creative and unique facilities we've built for them over the years. Riding arenas, stall barns, storage areas, run-in shelters ... everyone's needs are different. In fact, it seems every horse facility we build is as unique and as special as the owners and the horses themselves.

Do you have a vision or desire for a special horse facility? Let us help. We'll take your ideas and input — add our own creativity as you desire — and design and build an equestrian building that will be uniquely yours.

This is your building, so we start and end with you ... and what fits your needs.

Look to Fox for site design, for complete design/build services and for general contractor support including the coordination of all sub contractors. We'll maintain our solid standards for quality work, but we'll be flexible in working with you to get the job done quickly and efficiently. Our owners will be right there, on site to ensure your satisfaction.
