

YOUNGSTOCK FACILITIES

Youngstock facilities are as varied as the animals housed inside. Of all the youngstock facilities we've built, no two are the same by design or purpose. Fox understands this. That's why we'll start with you. From the very start, we'll design your new youngstock facility around you and the needs of your dairy.

With your help and our experience, we'll create the ideal facility design and layout to meet your specific needs. Look to Fox for site design, for complete design/build services, and for general contractor support including the coordination of all sub contractors. We'll maintain our solid standards for quality work, but we'll be flexible in working with you to get the job done quickly and efficiently. Our owners will be right there, on site, to ensure your satisfaction.

Fox is the ideal contractor to build your youngstock facility:

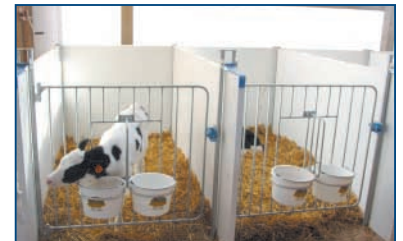

- Provides complete design/build services including engineering and architectural support
- Offers complete project management
- Self-performs all areas of concrete work and building erection
- Proficient in erecting wood or steel or steel framed structures
- Experienced in various ventilation designs
- Guarantees highest quality work at highly competitive pricing

Fox specializes in the design and construction of all agricultural buildings:

- Youngstock facilities
- Milking parlors
- Freestall barns
- Special cattle housing
- Commodity facilities
- Maintenance buildings
